Director Sick reviewed the agenda with those present. He then proceeded with reviewing the funding spreadsheet. Discussion was held on the operation and square footage funding. An agency procedure will be developed to clarify calculations. It was also determined that incentive verbiage needs to be changed on spreadsheet to align with the policy.

Tier funding has been removed and agency will continue to work on how to categorize the program areas.

Director Sick then reviewed the policy. Discussion was held on difference between high school and CTE center administrator allocations.

Looking ahead to future needs and next steps:

- Appendix II revision with tier funding included.
- When designing procedures need to consider how to monitor outputs and outcome impact. What data do we need to tell a better story when preparing for legislative session.

Director Sick thanked members for their hard work.

The meeting adjourned at 11:20 am.
