Join us for this Regional **HTEC Conference**, a training event for educators!

Hosted by **North Dakota State College of Science**, this conference brings together instructors, administrators, and industry partners dedicated to advancing manufacturing education.

Why Attend?

- Gain insight into the latest advancements in CNC technology and manufacturing trends.
- Participate in training breakout sessions and demonstrations.
- Network with fellow educators, industry partners, & competition organizations
- Discover resources and strategies to better prepare your students for successful careers in manufacturing.
- Whether you're new to CNC education or a seasoned instructor, **HTEC Conferences** offer valuable tools, connections, and inspiration to elevate your program and empower your students.
- Breakfast & lunch provided
- Door Prize raffle for all educators
- Explore resources from Gene Haas Foundation and HTEC Partners

Who Should Attend?

- Educators & Faculty from High School, Community College, & University CNC machining & Engineering Programs
- Workforce training program leaders
- FIRST Robotics and other MFG competition mentors

Please download the Whova app after registering for updates, conference information, and to begin networking with other HTEC Educators.

Conference address: NDSCS 8th Street North Wahpeton, ND 58076

Reception address: The Eagles 219 Dakota Ave Wahpeton, ND 58075
