Establishing Balance in a School Counseling Program

On-site at your school - limited availability.

School counseling programs focus on the Academic, Career and Personal/Social domains. Developing a Program of Work that is available to all students and maintains a balance between the three domains is a challenge. A review of state counseling requirements, available resources and tools will be included.

- This session will be at your school site. Uninterrupted work time required.
- The number of dates is limited for this workshop.
- Register to express your interest and the CRN will contact you for more information.

For this session's hours to count toward the 15 hours required for professional development credit, it must be a minimum of 5 hours.

To register, visit: www.cte.nd.gov/crnworkshops

The Career Resource Network plans to offer two additional workshops in the spring of 2022.

More information will be shared when available.

North Dakota Career Resource Network

Julie Hersch, Supervisor juhersch@nd.gov 701-328-9734
Laura Glasser, Admin Asst. leglasser@nd.gov 701-328-9733

Can't attend a workshop that you're registered for?
