

2023-24 Career Resource Network (CRN) Workshops

Educators have the power to transform the lives of their students.

They play a key role in finding ways to guide students through career exploration and educational planning to help them make informed decisions about their career path. Career exploration and work-based learning are making major headlines across the nation and in North Dakota and play a critical role for students throughout high school.

To facilitate this, NDCTE's Career Resource Network has invested in a systematic way of doing this work using RURReady.ND.gov. and Golden Path Solution's Compass for work-based learning. Join us this fall/winter to learn about RURReady.ND.gov and the Work-based Learning Module. This online tool assists students in career exploration and planning including connections to work-based learning experiences. It is a one-stop "shop" that will help ND students find their career path and make WBL connections.

The CRN is offering 3 workshops this fall/winter and one workshop spring of 2024:

RURReady.ND.gov Basics

This workshop is an overview of the career and academic tools available through the Career Resource Network, with the focus on RURReady.ND.gov and the RURReady.ND.gov Professional Center, as well as other resources available from the NDCRN. The Basics workshop will give you the foundational knowledge you need to get started using RURReady and the Work-based Learning Module with your students/clients. And we are pleased to announce our new FREE ACT prep Methodize Online ACT Test Prep on RURReady.ND.gov. The Methodize ACT course provides a comprehensive overview of the most effective strategies and most relevant content for raising ACT scores.

Take RURReady to the Next Level

Take your career development and work-based learning programs to the next level with new and updated RURReady.ND.gov features. Your students will benefit by utilizing site components in a strategic planning model. This workshop is for those that are experienced in using RURReady.ND.gov or who have attended the RURReady.ND.gov Basics workshop.

Data-Informed Career Decision Making (Virtual)

Why make career decisions based on data? We all know that making decisions based on data validates those decisions, increases confidence and proactivity, and improves accountability. Learn from ND agencies and professionals about resources that provide data that will help you guide students to a data driven career decision.

Spring 2024: Career Professional In-Service

We're bringing back industry tours! This workshop will provide timely information regarding upcoming legislative and career developments in ND, updates in RURReady.ND.gov, tours of area business/industry, and speakers.

Learn more about the workshop offerings and register by visiting:
www.cte.nd.gov/crnworkshops

ALL educators and career professionals are welcome to attend!
